Dear Sir/Madam

Thank you for your phone call today with reference to the Reach regulations for the storage and importing of chemicals in quantities of over 1 tonne.

I can confirm that ABB Low Voltage Products and ABB Low Voltage Systems do not import chemicals of any description as we manufacture and import electrical switchgear of which chemicals in the raw form do not play any part.

It is reassuring to know our customers are as concerned as ourselves on health, safety and environmental issues.

Regards  
Chris Smith  
Health, Safety & Environment Manager
